“

We leverage the unique skills, dynamic professionalism and rich individual experiences of our core group of Technocrat Promoters as well as those of our trained and committed experience staff.

”

We are committed to capacity building, learning, as well as acquiring and nurturing the best talent. Our emphasis is on providing customized solution with quality, timely delivery and after sales services as and when required as per customer needs. We operate throughout India and creating our presence globally by delivering superior results consistently.

Mr. Prakash Soni is a man of varied skills and experience. An engineer with MBA in Finance, started his career with great companies, and followed his experience to start his own company SAI CABTECH P. LTD. in the year 2009. His illustrious career came with the sincerity, intelligence, innovation, accuracy and performance which he displayed in his professional career.

Upon joining his first company, as a trainee in 1995, he was the change maker in inventing, redesigning & re-introducing new cable designs which not only lead to the company saving up to 30% in its manufacturing expenses, it also create a record of sorts, by directly getting him to become a design engineer of the company in a small time of 3 months.

The years from 1999 to 2009, saw him working at varied senior roles in reputed companies across the country and geographies. His body of work included from the basics of cable designs, electrical system designing to setting up huge manufacturing plants, handling complex machineries, systems etc.

Today, as the promoter of Sai Cab Tech Pvt Ltd (SCPL), he brings an amalgamation of rich experience, network and skills to ensure that the company creates a strong and a positive impact in the solar industry. His stress on quality, optimum performance over a longer period in time for SCPL's customers continues to be the company's main objective.

Understanding the clients requirements in detail, feasibility of the site in concern, designing for maximum efficiency/output and finally executing focus on long-term durability is SCPL's promise.

**“A customer who buys solar services from you, does not trust you for once, he trusts you for the next 25 years”** – He states.

**“The Best Brand” in Solar power generation was awarded to him and SCPL**, by the power and energy minister of Gujarat recently, is a testimony of his company's vision. SCPL is looking to expand exponentially in the country and as well as internationally. And needless to say, with a torchbearer of Mr Prakash Soni's caliber, it shall soon be achieved.

## CORE TEAM

SCPL has a mission one of the most admired company's in solar distribution by 2024. In order to achieve this mission, it has inducted in its team, senior professionals who can not only strengthen its mission statement, but also ensure that the growth achieved is measured not only in terms of quantity, but quality.

The Company is growing 200% YOY since its inception and continues to attract strong business and network of clients
